

# How many invoices do composers have?

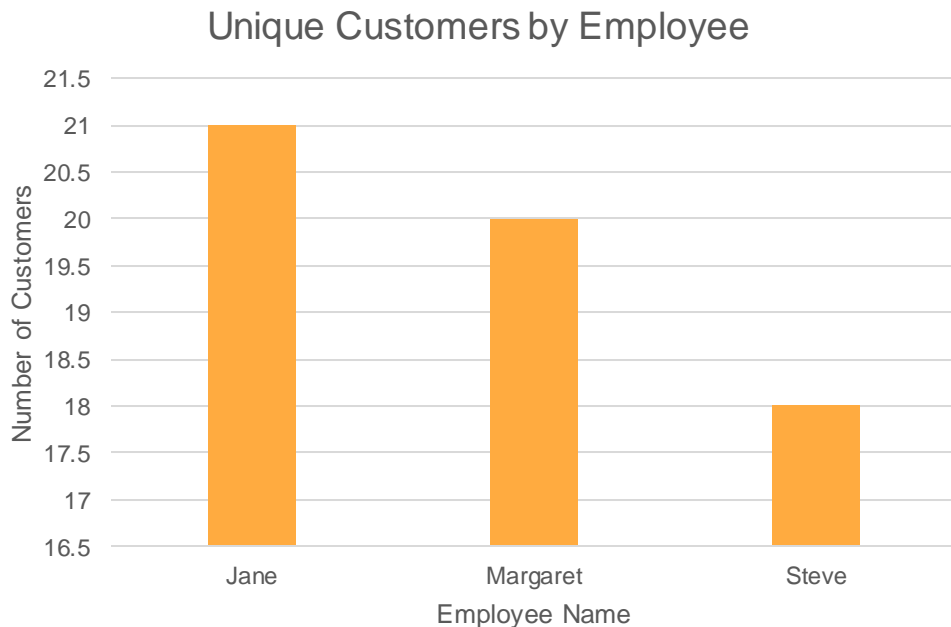

Description on next slide

# How many invoices do composers have?

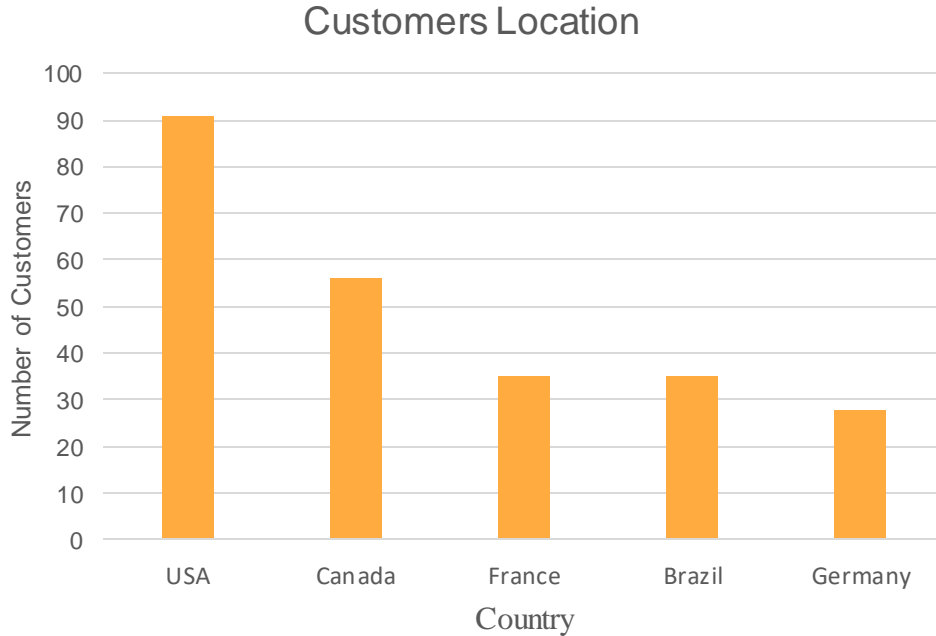

- This graph shows the first 20 composers and the amount of invoices they received. The lowest number of invoices were from composers that collaborated, they only had 1.

# Which employees have new customers?

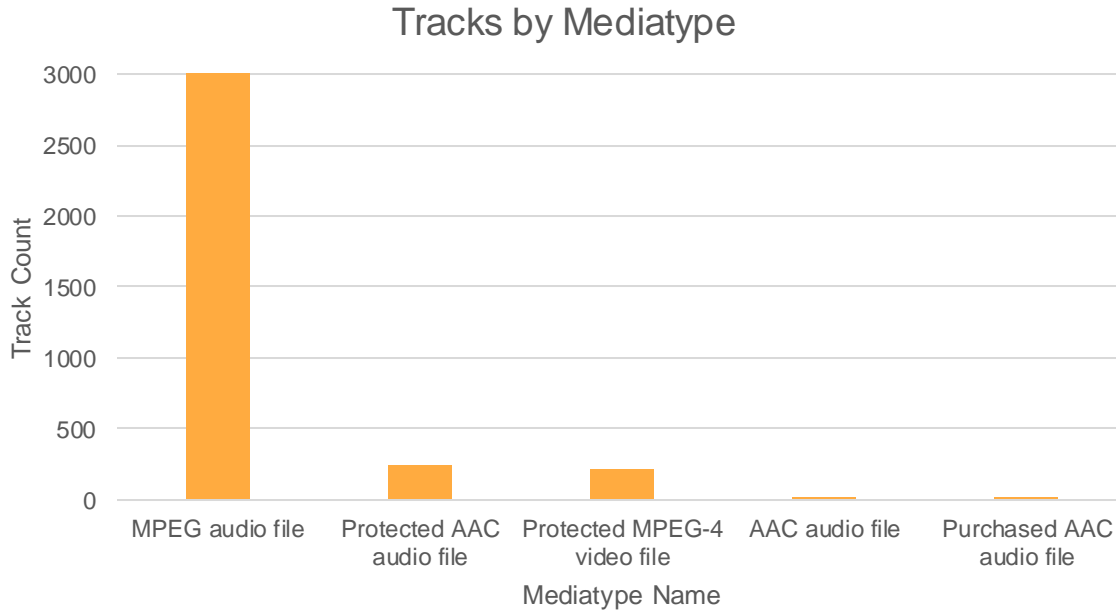

This graph shows which employees handled new customers. I found that Jane assisted the most new customers, but Margaret and Steve were only a few calls short

# What country are most customers from?

This graph shows the top 5 countries that customers are from. USA is most common with 91 customers which is more than any other.

# How many tracks are in each media type?

This graph shows me how many tracks were made in different media types. Majority of tracks are MPEG audio files while AAC audio files have the least amount.
